

# INDIRECT FIRED HEATERS IDF-SERIES

IDF-750

## INDIRECT FIRED

### DESCRIPTION:

The *IDF-Series* Indirect Fired Heaters are portable & rugged for use anywhere and are compact and easy to move. Because the products of combustion are diverted out the chimney and never come in contact with the air going into your space, you are left with 100% dry, clean air.

### FEATURES:

- **Clean Discharge Air**
  - Stainless steel combustion chamber keeps combustion air separate from discharge air
- **Easy Installation**
  - Compact size fits nearly everywhere
- **Portable**
  - Smaller models on wheels for easy mobility
- **Efficient**
  - Thermostatically controlled

(For mobile Indirect Fired heaters see pg. 14)

PRODUCT SPECIFICATIONS	IDFO-400	IDFG-500	IDFO-600	IDF-750	IDF-1000
BTU/INPUT	395,000	450,000	500,000	700,000	1,250,000
